### Bruises Disappeared in Real Time before My Eyes !

*I received a Relax Sauna FIR Table Lamp this week. What I see before my eyes is so crazy that I just have to post these results. I inject 1 ml vitamin B12 solution twice a day and my thighs look like bruised pincushions most of the time.*

*Tonight I put the lamp over the bruises and all but watched them disappear in real time. Within a few minutes, the bruises reduced in size by about 50% and the borders of the bruises faded quickly. Even after removing the light, my bruises continued to fade rather rapidly. I have tried five other FIR light devices over the last 2-3 years and have not seen anything like these results.*
